

**ALL TRAFFIC
SOLUTIONS**

Factory Recertified!

The SPEEDsentry®

A sign of the future.™

The SPEEDsentry speed display has a proven track record in traffic-calming efforts. Whether you need to clear complaints, increase public awareness or simply broaden your impact, you'll get better results with the highly portable SPEEDsentry because you'll use it more often.

Product highlights

FLEXIBLE DESIGN.

Mounts almost anywhere: pole, trailer or vehicle. With 12" digits, offers ideal visibility and maneuverability.

VIOLATOR STROBE.

Increase sign effectiveness by up to 30% with a strobe that alerts violators to their speed.

DURABLE, TAMPERPROOF CONSTRUCTION.

Powder-coated, welded aluminum enclosure and a shatterproof Lexan shield provide unmatched protection.

PROGRAMMING OPTIONS.

Use the simple onboard buttons, manage wirelessly via a PDA, or remotely through our web-based interface.

POWER OPTIONS.

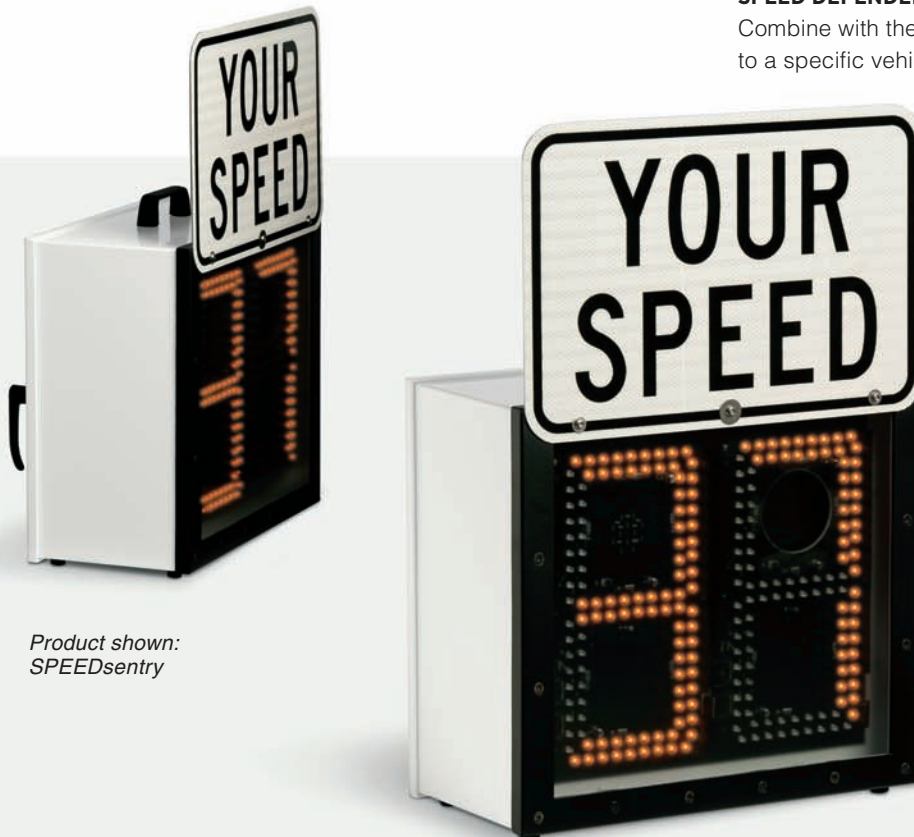

Choose from the internal power source, a range of AC supply options or solar assist.

POWERFUL DATA.

This easy-to-use sign lets you collect, review and utilize traffic data for better safety planning and outcomes.

SPEED DEPENDENT MESSAGING.

Combine with the instALERT to display messages relevant to a specific vehicle's speed.

The first web-based traffic safety signs

DEPLOY THE SIGN. THEN GO ONLINE.

If you subscribe to our SmartApps™, you can remotely manage settings and functions from anywhere there is an internet connection. No need for complicated hardware or network set-ups. And, no need to make extra trips to the sign.

From a single, customizable interface you can:

- Check sign status and location
- Remotely manage settings, schedules and messages
- Automatically retrieve and sort data into helpful reports for scheduling and enforcement
- Capture, review, edit, annotate, archive and manage images
- Interact with your signs on a virtual map
- Respond in real-time to changing situations
- Set automatic updates, self-diagnosis and a perpetual warranty
