Better Traffic Safety Outcomes

SPEEDALERT RADAR MESSAGE SIGN

SpeedAlert Radar Message Sign Product Highlights

By combining radar feedback with variable messages, our SpeedAlert family of radar message signs provide drivers with speed feedback, messages specific to vehicle speeds or dedicated messages. This hybrid of features makes the SpeedAlert an extremely versatile tool for both traffic calming and messaging.

SIMPLE, UNIVERSAL MOUNTING

Mount this sign almost anywhere—post, pole, trailer or vehicle—in about a minute.

DURABLE CONSTRUCTION

The welded aluminum enclosure, concealed mounting hardware, shatterproof Lexan and graffiti-resistant powder coating make it super tough.

SPEED-DEPENDENT MESSAGING

Slow traffic by using the sign as a large speed display and show custom messages directed toward drivers at specific speeds.

MESSAGING VERSATILITY

Go beyond basic messages with a full-matrix sign that makes it easy to display multiple screens of text, chevrons or custom images.

Plus, conditional sensor messaging allows different messages to be displayed based on live inputs, including time to destination, road surface or air temperatures, timer values, vehicle weights, high winds, and available parking spaces.

CLOUD-BASED REPORTING AND ACCESSIBILITY

Access traffic data, generate reports and share with your constituents from any Internet-ready device. Identify hot spots and prioritize resources. No more traffic data file management!

Easily sync messages across mobile devices over the Internet and instantly share messages with others.

Our enhanced TraffiCloud™ features and always-current user interface will keep you in contact with your signs and all your traffic management equipment and data.

Make your traffic management system more productive and effective.

Product Specs

SPEEDALERT 18

- o Speed - 2 or 3 digits; 18" H
- o Text - 1 Line; 4 Characters; 10" H
- o Text - 2 Line; 6 Characters; 7" H

Dimensions: 20" H x 30" W x 2.96" D

Weight: 25 lbs

Trailer and power supplies are not included.*

All Your Traffic Safety Program Data In One Place

TraffiCloud is our secure, web-based ecosystem for managing all your traffic safety data and equipment.

View dashboards and reports of all collected data. Make more insightful decisions based on data analytics from all your program components. Save time by managing the status of connected devices and dynamic messaging all from one central location. TraffiCloud functionality includes:

PREMIERCARE

Get a perpetual warranty and remote diagnostics for the duration of your subscription.

- 50% discount on accidental damage
- Real-time remote diagnostic monitoring

IMAGE MANAGEMENT

Achieve greater awareness with alarms or by requesting generated images.

- Capture images based on speeds, tampering, time intervals or upon request*
- Review, edit, print and act on useful images

REPORTING

Save time collecting, organizing, compiling and distributing information.

- Automated, daily uploads of new data into a centralized, SAS70-certified environment
- Identify trends to allocate resources and be proactive
- Schedule reports for regular delivery to your inbox

ENFORCEMENT

Automate the collection of Lidar captures.

- Ensure data accuracy
- Minimize data collection time

MAPPING

Manage your entire program through an intuitive visual interface.

- Interactive map provides a window to all system information

EQUIPMENT MANAGEMENT

Stop wasting time driving to equipment to update and monitor it.

- Check status and change settings from any Internet-connected device
- Send single message to multiple signs at once
- Respond immediately to changing situations

ALERTS

Specify when and whom to notify upon occurrence of certain conditions.

- Receive email or text as events happen
- Be aware of low batteries, high speeds, tampering, congestion and more

*Images can be used to identify vehicle make and color but are not ALPR quality.
