

PRODUCT SPECIFICATIONS:

INFRASTRUCTURE-FREE TIME TO DESTINATION MONITOR DISPLAY

Drive Times Virtual Display

Show your tenants or customers the best way to a destination before they get into their vehicle. Intended for lobbies or at an elevator, the Drive Times Virtual Display shows a driver the time to destination for multiple route choices so they can plan their trip as they head to their vehicle.

Define routes with a web-based interface that is linked to a cloud-based travel time data source that aggregates multiple historical and live sources of traffic data providing accurate, live travel times without the need for in-road sensor infrastructure.

Drive Times integrates seamlessly with All Traffic Solutions' TrafficCloud message deployment platform.

Route Definition

- Routes defined using web based interface and assigned user-defined names
- Routes are easily re-configurable
- Up to 5 active routes can be established per Drive Times subscription
- Routes consume TomTom real time traffic data aggregated from multiple live and historical sources.

Use of Routes

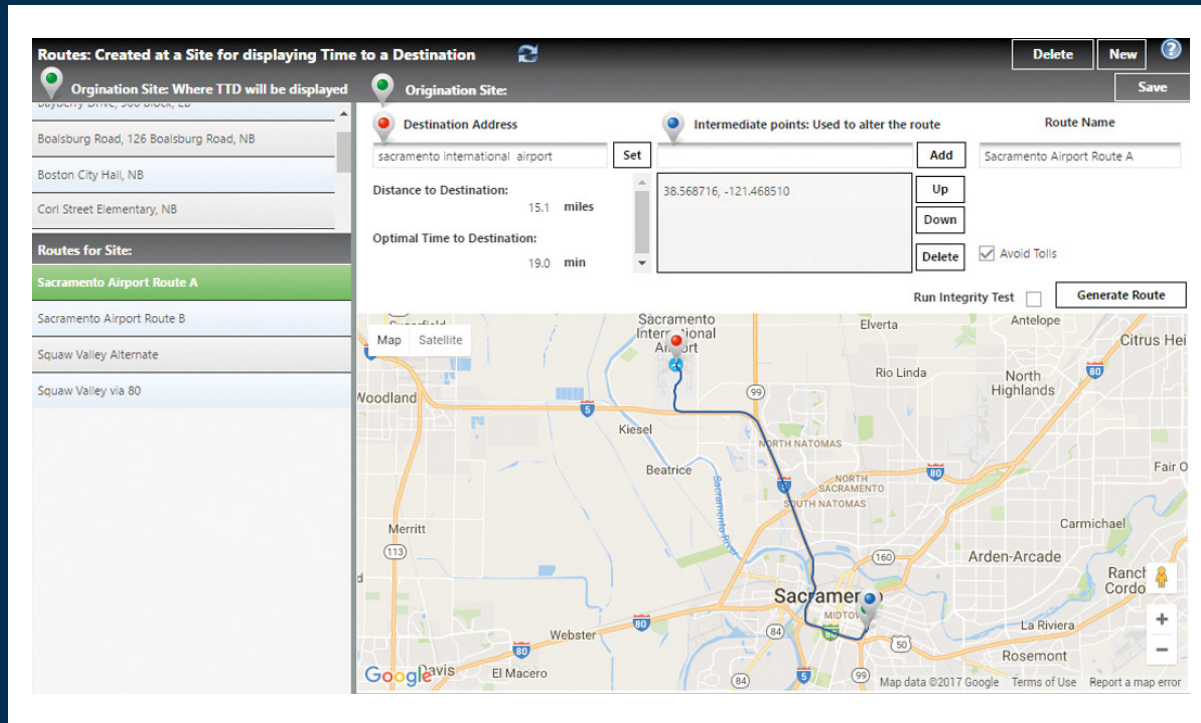

- Travel time over multiple routes is displayed on monitor with custom URL
- Display will step through route display on map, showing one route per step to make it easy to interpret

Platform Technology

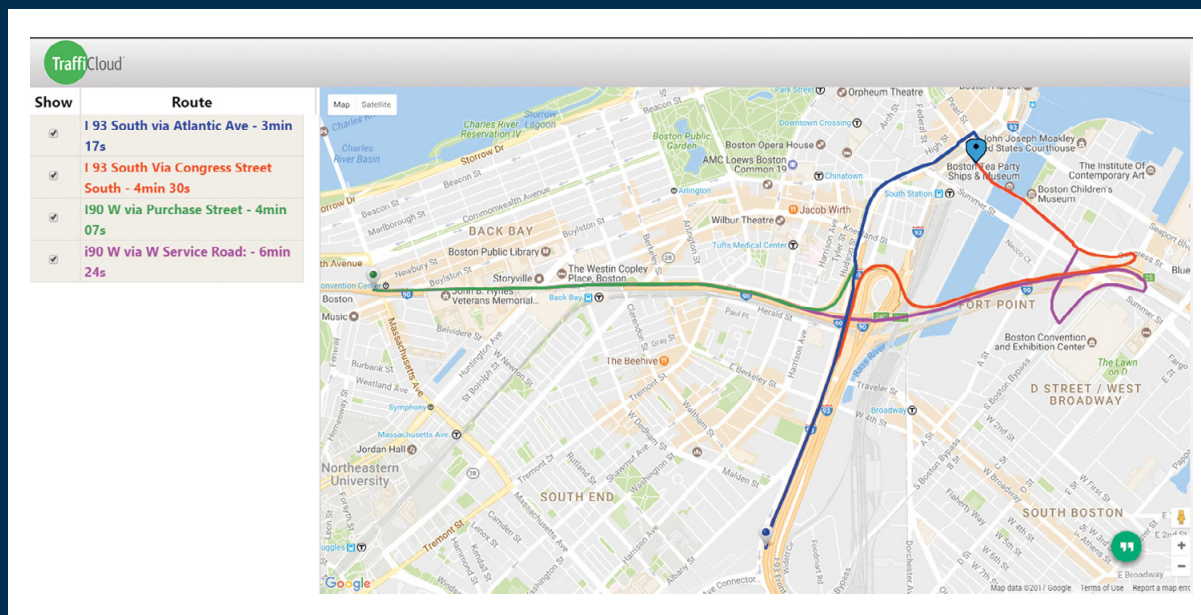

- Turnkey system. URL functionality is pre-established
- No traffic data sensors necessary
- Drive Times traffic data refreshed every minute
- Password protected system with three levels of access
- Web-based user interface is always up to date and continually receives applicable enhancements
- Fully hosted web-based management system
 - Internet connected computer and browser provides anywhere access
 - No IT infrastructure or support necessary
 - Bypasses customer network eliminating firewall and access issues
 - No additional hardware or network appliances necessary
 - No software or middleware to install for remote management
 - Wireless cellular connection provided by ATS, no separate charges
- Hosted system requires no setup or maintenance by customer

Compatible with these ATS Products

Engineered and Manufactured in the United States of America
