Connected Solutions for Better Traffic Safety Outcomes

STARTRAK TRAFFIC DATA COLLECTION

AllTrafficSolutions.com

StaTrak Traffic Data Collector

StatTrak is a fully integrated multilane, bidirectional traffic data gathering device. Designed with a microwave sensor, StatTrak provides a turnkey solution to your traffic monitoring needs. Featuring small size, no-hassle field setup (one person installation takes less than five minutes!), non-intrusive sensing technology, long range wireless connectivity and extremely low power, StatTrak ensures operational safety during installation, take-down and data retrieval.

VERSATILITY

Collect data in both directions in up to four lanes with a single device.

STORAGE

Connected to TrafficCloud® storage is virtually limitless. Locally, store 350,000 individual vehicles in on-board memory and download data in two minutes.

POWER AND BATTERY LIFE

Built-in rechargeable battery pack provides two weeks of run time; unlimited run time is available with solar option, even under cloudy and wintry conditions.

BIDIRECTIONAL

One incoming/one outgoing lane with unit mounted on the side

BIDIRECTIONAL

Two incoming/two outgoing lanes with unit mounted in a median

UNI-DIRECTIONAL

Two incoming lanes with unit mounted on the side

PRODUCT SPECS

STATRAK

Dimensions 6.8" H x 4.8" W x 5.3" D

Target Tracking Multi-lane and bidirectional capabilities

Weight 3 lbs.

Accuracy 0.4% speed error accuracy and up to 97% count accuracy

TRAFFICLOUD COMPATIBLE

StatTrak, combined with TrafficCloud capability, lets you run ready-made reports in seconds from any Internet-connected device. Eliminate data file management, increase efficiency and gain real-time insight.

Data can also be retrieved locally, when necessary.

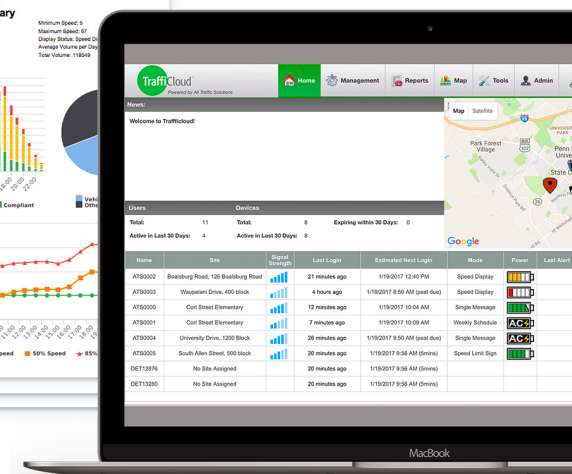

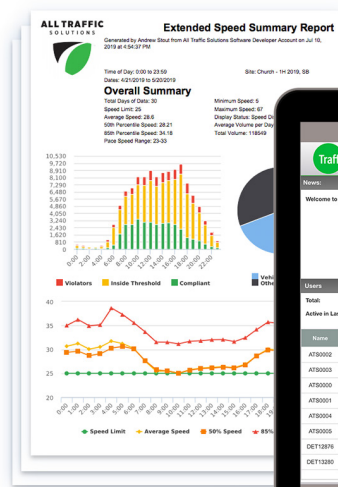

Access All Your Traffic Safety Devices and Data in One Place with TrafficCloud®

ATS TrafficCloud is patented, cloud-based software for managing all your traffic safety data and equipment securely from any internet connection.

Take a demo of TrafficCloud and discover the benefits of automated traffic management.

Equipment Management

- No more driving to equipment to monitor, check batteries or program
- Check status and change settings from any Internet-connected device

Alerts

- Specify who to notify when certain conditions occur
- Know immediately about low batteries, high speeds, tampering, congestion and more

Mapping

- Manage your entire program through an intuitive visual interface
- Interactive map provides a window to all system information

Reporting

- Save time collecting, compiling and distributing information
- Identify trends to allocate resources and be proactive
- Schedule reports for recurring email delivery to whomever you designate

Premier Care Support Plan

- Get a perpetual warranty and real-time remote diagnostics with your TrafficCloud subscription
- 50% discount on repairs due to accidental damage or vandalism
- 50% off equipment batteries
