ALL TRAFFIC
## SOLUTIONS™

SMART PARKING, TRAFFIC SAFETY AND TRAFFIC MANAGEMENT SOLUTIONS

AllTrafficSolutions.com

ATS is 100% focused on your goals to make traffic and transportation management easier and better for everyone, with the right-size, right-fit, right-technology solutions that work for your needs, your goals, your budget, your future.

Innovation in traffic and parking technologies continues to change the way the world solves its most complex transportation challenges. By leveraging the Cloud, platform and the Internet of Things (IoT), ATS provides the most accurate cost-effective turnkey solutions available today, allowing organizations of all sizes to leverage their existing infrastructure and real-time data and analytics to achieve even better parking management and traffic safety outcomes.

ATS is 100% focused on your goals to make traffic and transportation management easier and better for everyone, with the right-size, right-fit, right-technology solutions that work for your needs, your goals, your budget, your future.

ATS partners with law enforcement agencies, departments of transportation and public works, local government, parking operators and private organizations that want to increase traffic safety, calm traffic, communicate with drivers and pedestrians, and manage parking availability and guidance holistically in real time, while at the same time decrease operating costs, maximize resources and efficiencies and plan for the future.

YOUR SOLUTIONS PARTNER

Unlike vendors that sell signs and hardware, ATS is a true solutions provider.

When you engage with us, you benefit from the latest sensor-driven technologies, IoT and our data-centric approach to smart parking, transportation and traffic management systems.

We work with you to build the traffic management system that works best for your specific requirements and budget—now and into the future—enabling you to leverage your existing investments and giving you virtually limitless technology choices.
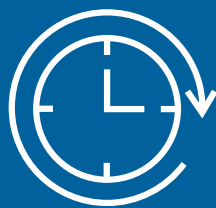

TraffiCloud™

TraffiCloud is a patented, secure, cloud-based traffic management ecosystem that allows users to manage all their traffic devices—regardless of manufacturer—as well as data and sensors, remotely from one place, via a single intuitive dashboard, from any Internet connection. TraffiCloud delivers new levels of awareness and control over your traffic program.

ParkingCloud™

ParkingCloud™ is the only cloud-based IoT platform purpose-built for the parking, transportation and traffic industries that integrates all your devices, data and output in one place. With ParkingCloud, your technology choices are limitless, independent of your current environment—as complex or as simple as you need them to be.

By providing unprecedented levels of accuracy, access and control and real-time insights into traffic flow and parking availability throughout your community, ATS realizes our mission to make happier, healthier, greener cities.

REDUCE WORKFORCE HOURS

Our Philosophy

At All Traffic Solutions, our goal is to deliver the solution you need today and into the future efficiently, cost-effectively and hassle-free.

Flexible

Our open platform allows you to integrate to create the best solution to meet your needs.

Extensible

Scalable solutions to meet your needs today and as they change.

Open

Open-platform approach to maximize utilization across devices and systems.

Device-Agnostic

Don't get locked into one technology. With ATS, you can have them all.

Budget-Friendly

Technology doesn't have to be expensive to work the way you want it to.

Accurate

Data you can trust for highest accuracy, from one device to an entire platform.

Cost-Effective

Open platform delivers the solution that meets both your price point and your needs.

Customer-Focused

We don't just partner with our customers; we're on your team.

Mission-Driven

We're 100% focused on your goals, making parking management, traffic management and traffic safety easier.
