

SMARTZONE FOR SCHOOLS RADAR SPEED DISPLAY — KEEP STUDENTS SAFE

The only school zone safety solution with Audible Alerts, SmartZone for Schools is fully programmable from any Internet-ready device.

FACT: The majority of child pedestrian deaths and injuries are traffic related and are more likely to occur in residential areas and on local roads.

FACT: Teen pedestrian injuries and deaths are on the rise. The use of smartphones and texting by both kids and drivers increase that risk.

FACT: As many as nine out of ten crosswalks within the vicinity of an elementary or middle school has at least one of four common hazards, including drivers who fail to stop or make illegal turns, missing or poorly marked crosswalks, missing ramps from crosswalks to sidewalks and posted speed limits in excess of 35 mph.

EFFECTIVE WARNING FOR STUDENTS

SmartZone for Schools radar speed displays make it easier for schools, municipalities and law enforcement to optimize safety and protect kids during school zone hours. It's the only solution with built-in Audible Alerts to warn kids when a speeding vehicle is near.

Give kids precious seconds to find safety.

AUDIBLE ALERTS

Amplified sound grabs the attention of speeding drivers so they'll slow down and alerts children, bike riders and crossing guards to give everyone time to get to safety.

RADAR SPEED DISPLAYS

These portable web-enabled radar speed displays mount onto pole, trailer or vehicle. Installed next to a speed limit sign they let drivers know when the speed limit is exceeded. Includes "School Zone" wrap and "Your Speed" sign.

AUTOMATED ALERTS

When used with the TrafficCloud Remote Management Service you can set email or text alerts to go directly to law enforcement when a speeding driver passes a specific sign, so that officers can be on the lookout.

TRAFFICLOUD-READY

SmartZone for Schools radar speed displays are fully programmable with TrafficCloud™ from any Internet-connected device for easy anytime, anywhere access and monitoring.

REMOTE MANAGEMENT

No more driving to every sign in the neighborhood to set timers and download data. Manage SmartZone for Schools and all of your traffic devices and data from one central, easy-to-use interface. Receive alerts for low batteries, tampering and high-speed violators. Always know the locations of all of your devices.

SET SCHEDULES

Independently schedule Audible Alerts for school days and hours. Revise in minutes for holidays, vacations and unexpected school closings.

SET SPEED LIMITS

Set lower speed limit when school is in session and during the hours before and after school when kids are walking or being dropped off or picked up. Set higher speed limit for non-school times.

GATHER DATA AND ANALYTICS

Run ready-made reports on speed and volume, compliance and enforcement priorities. Set report subscriptions for automatic delivery to management or other authorities. Grant funding is easier to attain when your application is supported by data that confirms need and proves program success.
