ALPR CAMERA-READY TRAILERS

AllTrafficSolutions.com

MADE IN THE USA

EASILY DEPLOY ALPR CAMERAS WHEREVER NEEDED

*With trailers that are optimized to fit the **automatic license plate recognition** (ALPR) camera system of your choosing.*

You tell us which cameras you're purchasing, and we work together with our partners to optimize your trailer to provide the best run time for your ALPR system. Trailers are ready for deployment upon delivery, and we confidently stand behind them with world-class customer support and the best warranties on the market.

MULTIPLE CAMERA BRAND OPTIONS

We have partnerships with several leading ALPR camera providers, and work directly with them behind the scenes to seamlessly install your preferred camera system on the trailer. Trailers are delivered to you with cameras on board, ready for immediate deployment!

UNMATCHED MOBILITY

Trailers feature a simple manual lever lift system for quick 1-person setup. No special equipment is needed to transport them— they can be towed by any size vehicle with a 2" receiver hitch.

OPTIMAL RUNTIME

All Traffic Solutions' ALPR camera-ready trailers remain up and running for weeks to months straight.* During late spring and summer, the solar panels can keep the trailer charged continuously with no need to recharge batteries.

BATTERY & TAMPER ALERTS

Get alerted via text message or email when a trailer is tampered with or when batteries run low. Prevent accidental camera downtime and take the guesswork out of deciding when to recharge batteries. Tamper alerts include photos automatically captured by the trailer so you can take action.

MULTIPURPOSE & VERSATILE

Trailers are compatible with our InstAlert variable message signs and SpeedAlert radar message signs so you can share messages, reduce speeding, or collect traffic data while covertly capturing license plates.

SpeedAlert 24 radar message sign on 380 ALPR camera-ready trailer with two-camera enclosure

*Runtime is dependent upon how trailer settings are programmed and the availability of sunlight for solar power

RUGGED AND BUILT TO LAST

The continuous weld steel frame and marine-grade powder coat finish withstands heavy rain, snow, ice, and extreme temperatures without rusting.

Most ATS trailers are still in use after 10 or 15 years of year-round use!

CUSTOMER SUPPORT AND WARRANTY

We proudly stand behind our solutions with US-based tech support, complimentary one-on-one product trainings, and the best warranty plans on the market, so you get the most out of your purchase for years to come.

If you experience any issues with your ALPR-equipped trailer, we work directly with our partner ALPR camera providers to efficiently resolve any concerns.

WE OFFER TWO MODELS OF ALPR CAMERA-READY TRAILERS:

190 ALPR Camera-ready Trailer

Ideal for powering one license plate reader camera.

380 ALPR Camera-ready Trailer

Optimal for powering multi-camera license plate reader systems.

SpeedAlert 24 radar message sign folded down on 380 ALPR camera-ready trailer

Open two-camera enclosure with cameras installed

Customizable two-camera enclosure

ABOUT ALL TRAFFIC SOLUTIONS

Since our inception in 2000, we have helped over 6,000 government agencies, higher education institutions, and private sector organizations manage traffic and improve overall safety.

MADE IN THE USA

Our signs and trailers are engineered and manufactured in the United States in compliance with the Buy America Act and the Buy American Act.

CUSTOMER EXPERIENCE

Our relationships with our customers don't end after a sale is made. We proudly stand behind our solutions with:

- US-based customer support
- Complimentary one-on-one product training sessions
- The best warranty plans on the market, so you get the most out of your purchase for years to come
