EXPERIENCE UNMATCHED VERSATILITY: A FLEXIBLE TRAILER THAT CAN POWER YOUR TECH NEEDS

The ATS 5 FLEX trailer is a portable, plug-and-play solution to power cameras, sensors, and detection technologies. Rapidly deploy the tools you need when and where you need them, with extended runtime.

FLEXIBLE COMPATIBILITY

The ATS 5 FLEX provides the power and mobility you need to rapidly deploy your choice of technology wherever it's needed most. With its flexible design and variety of configuration options, installing your preferred equipment is simple— saving you time and avoiding additional fees for installation and integration.

OPTIMAL RUNTIME

The ATS 5 FLEX trailer is self-powered and can achieve uninterrupted runtime with its dual battery box and highly efficient solar panels.

UNMATCHED MOBILITY

Deploying technology permanently in one location can be a time-consuming process, often taking months to complete. However, with the ATS 5 FLEX, you gain the flexibility to deploy your technology anywhere, anytime and move it around as your needs change. No special equipment is needed to transport ATS 5 FLEX trailers— they can be towed by any size vehicle with a 2" receiver hitch.

REMOTE MANAGEMENT

The trailer's sign connects to our online TraffiCloud® portal, so you can conveniently manage and monitor power status, location, radar speed/message sign settings, and more 100% remotely. Save time while ensuring that your equipment is functioning exactly as you need it to at all times!

MULTIPURPOSE & VERSATILE

Trailers are compatible with our InstAlert variable message signs and SpeedAlert radar message signs so you can share messages, reduce speeding, or collect traffic data while using your other equipment of choice.

LOW BATTERY & TAMPER ALERTS

Get alerted* via text message or email when a trailer is tampered with or when batteries run low. Prevent accidental equipment downtime and take the guesswork out of deciding when to recharge batteries. Tamper alerts include photos automatically captured by the sign so you can take action.

**TraffiCloud® subscription is required for alerts*

MADE IN THE USA

We proudly engineer and manufacture our trailers here in the United States, ensuring the highest quality craftsmanship and an exceptionally fast lead time.

RUGGED AND BUILT TO LAST

Most ATS trailers are still in use after 10 or 15 years of year-round use! The continuous weld steel frame and marine-grade powder coat finish withstand heavy rain, snow, ice, and extreme temperatures without rusting.

OPTIONAL CONFIGURATION LOCATIONS TO MOUNT ADD-ON EQUIPMENT:

1. Crossbar at top of trailer
2. Middle of trailer frame
3. Compartment on back of battery box
4. Trailer hitch

Rear view of trailer

WE OFFER TWO POWER OPTIONS FOR THE ATS 5 FLEX:

190W Trailer

Ideal for up to 30W solutions to achieve continuous and uninterrupted solar/battery power autonomy*

380W Trailer

Ideal for up to 50W solutions to achieve continuous and uninterrupted solar/battery power autonomy*

**Time of year, location & sign usage can cause variation in run times*

380W ATS 5 FLEX trailer

KEY FEATURES:

380W or 190W Solar Assist

Radar and Message Sign

Remote Access & Management

Dual Battery Box for Extended Runtime

Durable Design & Build

Highly Mobile for Quick Deployment

ABOUT ALL TRAFFIC SOLUTIONS

WHO WE ARE

Since our inception in 2000, we have helped over 6,000 government agencies, higher education institutions, and private sector organizations manage traffic and improve overall safety.

CUSTOMER EXPERIENCE

Our relationships with our customers don't end after a sale is made. We proudly stand behind our solutions with:

- US-based customer support
- Complimentary one-on-one product training sessions
- Industry-leading warranty plans, so you get the most out of your purchase for years to come
