SpeedAlert 18 on an ATS 3 Trailer

SPEED-DEPENDENT MESSAGING

Give drivers immediate feedback by displaying custom messages specific to their speed, like “Slow Down”, “Too Fast!”, or any other message you choose to create. You have complete control over which messages are displayed, when they are displayed, and for how long.

VARIABLE MESSAGING

Use as a message board to display multiple screens of custom text and graphics. Share safety alerts, encourage responsible driving, direct traffic, and more.

EASY TRANSPORT & SETUP

SpeedAlert 18 is easily deployable by one person on a trailer, portable post, pole, or vehicle hitch in minutes.

RED & BLUE VIOLATOR STROBE

Alert those who are traveling at high-risk speeds with flashing red and blue LED lights. You choose which speeds trigger the lights and can change the thresholds at any time.

RELIABLE TRAFFIC DATA COLLECTION

SpeedAlert collects accurate speed and traffic volume data, so you can:

- Conduct hassle-free traffic studies
- Quickly resolve speeding complaints
- Improve safety for drivers and pedestrians
- Identify speeding hot spots and prioritize enforcement in high-risk areas
