# LPR CAMERA-READY TRAILERS

[AllTrafficSolutions.com](http://AllTrafficSolutions.com)

MADE IN THE USA

# EASILY DEPLOY LPR CAMERAS WHEREVER NEEDED

*With trailers that are optimized to fit the **license plate recognition (LPR)** camera system of your choosing.*

We partner with leading LPR providers to install their camera systems on our trailers, delivering you a fully-integrated solution that provides exceptional runtime, mobility, and ease of use.

## MULTIPLE CAMERA BRAND OPTIONS

We have partnerships with most leading LPR camera providers, and work directly with them behind the scenes to seamlessly install your preferred camera system on the trailer. Trailers are delivered to you fully integrated with cameras on board.\*

## UNMATCHED MOBILITY

Trailers feature a simple manual lever lift system for quick 1-person setup. No special equipment is needed to transport them— they can be towed by any size vehicle with a 2" receiver hitch.

## OPTIMAL RUNTIME

All Traffic Solutions® LPR camera-ready trailers remain up and running for weeks to months straight.\*\* During late spring and summer, the solar panels can keep the trailer charged continuously with no need to recharge batteries.

## REMOTE SIGN MANAGEMENT

The trailer's sign connects to our online TrafficCloud® portal, so you can conveniently manage and monitor power status, location, radar speed/message sign settings, and more 100% remotely. Save time while ensuring that your equipment is functioning exactly as you need it to at all times!

## MULTIPURPOSE & VERSATILE

Trailers are compatible with our InstAlert variable message signs and SpeedAlert radar message signs so you can share messages, reduce speeding, or collect traffic data while covertly capturing license plates.

*SpeedAlert 24 radar message sign on 380W LPR camera-ready trailer with two-camera enclosure box*

\*Cameras must be purchased separately from a vendor of the customer's choosing

\*\*Runtime is dependent upon how trailer settings are programmed and the availability of sunlight for solar power

## LOW BATTERY & TAMPER ALERTS

Get alerted\* via text message or email when a trailer's sign is tampered with or when power runs low. Prevent accidental equipment downtime and take the guesswork out of deciding when to recharge batteries. Tamper alerts include photos automatically captured by the trailer's sign so you can take action.

## RUGGED AND BUILT TO LAST

The continuous weld steel frame and marine-grade powder coat finish withstands heavy rain, snow, ice, and extreme temperatures without rusting.

Most ATS trailers are still in use after 10 or 15 years of year-round use!

## WE OFFER TWO MODELS OF LPR CAMERA-READY TRAILERS:

### 190W LPR Camera-ready Trailer

Ideal for powering one license plate reader camera.

### 380W LPR Camera-ready Trailer

Optimal for powering multi-camera license plate reader systems.

*380W LPR camera-ready trailer with cameras attached to mounting arms and brackets*

*Mounting arms option*

*Camera enclosure box option*

*Recessed camera compartment option*

*190W LPR camera-ready trailer with cameras attached to mounting plate*

\*TraffiCloud® subscription is required for alerts

# ABOUT ALL TRAFFIC SOLUTIONS®

Since our inception in 2000, we have helped over 6,000 government agencies, educational institutions, and private sector organizations manage traffic and improve overall safety.

## MADE IN THE USA

We engineer and manufacture our products in the United States at our State College, Pennsylvania production facility.

## CUSTOMER EXPERIENCE

We are well-known in the industry for providing exceptional service to our customers. We proudly stand behind our solutions with:

- US-based customer support
- Complimentary one-on-one product training sessions
- Industry-leading warranty plans, so you get the most out of your purchase for years to come
